everroll® Shades of Grey

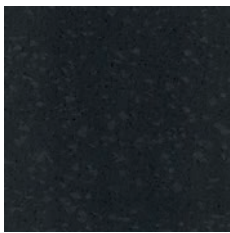

Covering the Globe

With over 43 different colours in the **everroll® Collection** it can be difficult to choose just one when all of them can bring so much brightness and enjoyment to your project. Which is why we have created the **everroll® Shades of Grey Collection**. A simplified pallet, containing all of the grey and black shades in the everroll® Collection. Allowing you to focus on the neutral shades of grey without the distractions of other colours.

By using the **everroll® Shades of Grey Collection** your project can remain neutral, able to easily blend with existing colours, while giving you the option to use bold bright decor and furnishings to bring on the colour.
