

THE FLOORING SOLUTION FOR YOUR **FITNESS FACILITIES** FUNCTIONAL TRAINING

OUR FLOOR FOR FUNCTIONAL TRAINING

Perfectly functional:

The complex physical activities in Functional Training are supported by our REGUPOL everroll fitness floors.

Our floors are comfortable and relieve and support bodies and joints, enabling the sportsmen and women to perform training sessions with their own body weight much better. In addition, the floors create the optimal surface for exercises in standing and supporting positions. The surfaces are extremely resilient and also protect the sub-base. This is a decisive factor in preserving the building itself, especially when working with kettlebells, dumbbells and battle ropes.

Rolls

Point elastic | slip-resistant with secure foothold | natural or sealed | standard thicknesses: 8 or 12 mm

Our products: REGUPOL everroll classic, REGUPOL everroll ultimate

Multi-Layer System Build-Up

relieves and supports bodies and joints | protects the sub-base | elastic and resilient | various thicknesses

Our products: REGUPOL everroll impact
